

**SUSTAINABLE
DEVELOPMENT
GOALS**

TMW Group will support
“The 2030 Agenda for Sustainable Development (SDGs)”
which was adopted on 2015.

We aim to contribute to society and
to the environment, and recognize
this as a corporate responsibility.

Sustainable Development Goals (SDGs)

The 17 Goals that must be tackled worldwide by 2030.
This Agenda is a plan of action for people, planet and
prosperity. We are aiming to realize a sustainable
world without leaving any one behind.

Initiatives for SDGs

Contribution for environment

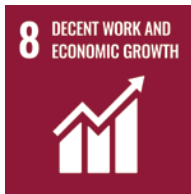

■ Continuation of Environment Management System

We aim to become an environmentally friendly company by complying with laws and regulations and using an environmental management system.

■ Improvement of products quality

We aim to reduce environmental energy by working toward "Zero product defects".

Contribution for Society

■ Promotion of sustainable mold business

We will strive to innovate in the mold industry and work on new technologies and maintenance to make the mold industry a sustainable industry.

■ Strengthen global collaboration

We will strengthen the global collaboration by developing human resources who can play an active role globally

■ Creation of safe work environment

Ensure a safe and comfortable working environment in accordance with the Safety and Health Action Guidelines
